this much needed volume represents all that is new in the field of global ethics it recognizes the emergence of the search to move beyond relativism and the study of ethical aspects of globalization acknowledging aspects of globalization that make ethical reasoning itself a challenging task as such the young field of global ethics is a search for new approaches and methodologies that go beyond existing ones and succeed in addressing these ethical issues of globalization this volume presents these new developments focusing specifically on how to re conceive ethics in order to come to grips with ethical and political life today it sets out an agenda for the field of global ethics addresses the critiques and

illustrates the rapprochement of global ethics this is a valuable collection of essays that connect theoretical innovation with substantive issues in the public realm and hence is suitable for a wide audience across philosophy politics international relations and development studies

academic freedom and tenure both cherished institutions of higher education are currently under attack by many both outside and within the academy richard degeorge argues that they can be defended on ethical grounds only if they are joined with appropriate accountability publicly articulated and defended standards and conscientious enforcement of these standards by academic institutions and the members of the academic community he discusses the ethical justification of tenure and academic freedom as well as ethical issues in their implementation he argues that academic freedom which is the basis for tenure is not license nor the same as freedom of speech properly understood and practiced both academic freedom and tenure exist not to benefit faculty members or their institutions but to benefit an open society in which they thrive and of which they are an important part

while skeptics once saw the concept of business ethics as an oxymoron modern businesses are proving them wrong success depends not only on educating young professionals about ethical practices but on the implementation of these practices in all aspects of a company the handbook of research on business ethics and corporate responsibilities explores the fundamental concepts that keep companies successful in the era of globalization and the internet investigating the implementation of best practices and how ethics can be taught to the next generation of business experts this handbook is an essential reference source for students academics business managers or anyone interested in the increasingly interdisciplinary field of business ethics and its applications in the world today

in modern business environments ethical behavior plays a crucial role in success managers and business leaders must pay close attention to the ethics of their policies and behaviors to avoid a reputation crushing scandal business law and

ethics concepts methodologies tools and applications explores best practices business leaders need to navigate the complex landscape of legal and ethical issues on a day to day basis utilizing both current research and established conventions this multi volume reference is a valuable tool for business leaders managers students and professionals in a globalized marketplace

in values nature and culture in the american corporation distinguished ethicist william frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically he begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension the first is the need for managers to efficiently allocate resources for maximum profits the second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake the third is the desire for people in the community to create relationships that will perpetuate these communities frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion in the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology

for courses in business ethics moral issues in business social issues in business business and society international business ethics and issues in international business this systematic integrated investigation of the field of business ethics is presented from an informed philosophical point of view it argues that ethics is the glue as well as the oil that makes business possible addressing the full gamut of issues from such macro considerations as the moral justification of economic systems to such micro issues as proper computer use by employees
