an overview of significant research into the roles and working characteristics of managers is supported by case histories describing the professional activities of five top executives

first published in 1998 readers of this volume will get a good overview of research into managerial work they will learn about what the researchers have studied what methods have been used and the criticisms of the limitations of individual methods the different concepts that have been developed what has been learnt about managerial work and behaviour from these studies over the years how this field of study has developed the main criticisms made of the research suggestions for future research and future developments studies of managerial work have a long history the first major work was by sune carlson in sweden in 1951 and studies have continued to the present day mainly in the usa and the uk the early studies sought to find out what managers actually did as distinct from the generalized theories of the nature of managerial work they were part of the new interest of social scientists in finding out what actually happened in organizations in opposition to the general theories that prevailed then articles cannot give a complete picture of the field studies that have been such a notable feature of this branch of research because carlson s study like many of the later ones was published only as a book however they provide all the information that students and researchers need to understand the aim methods and approaches used by researchers so far and a good guide to the varied possibilities for developing this area of study

in view of the approaching age of austerity for the public sector leadership is likely to continue to become a key theme this edited volume brings together a host of material from the public sector to analyze the issue internationally teelken dent ferlie lead a team of contributors in examining three key aspects of this increasingly important theme the meaning of public sector leadership and how this changes in different contexts the implications for leadership style given the growing role of the private sector the response to the leadership issue from professionals moving into senior management roles with contributions from respected academics such as jean louis denis mike reed and mirko nordegraaf this book will be an invaluable supplementary resource for those undertaking studies across public sector management and administration

bringing together one of the most important bodies of research into people s working

practices this volume outlines the specific character of the ethnomethodological approach to work providing an introduction to the key conceptual resources ethnomethodology has drawn upon in its studies and a set of substantive chapters that examine how people work from a foundational perspective with contributions from leading experts in the field including graham button john hughes and wes sharrock ethnomethodology at work explores the contribution that ethnomethodological studies continue to make to our understanding of the ways in which people actually accomplish work from day to day as such it will appeal not only to those working in the areas of ethnomethodology and conversation analysis but also to those with interests in the sociology of work and organisations

the european conference on management leadership and governance has evolved significantly over the past 21 years adapting to the changing landscape of management and leadership practices initially focusing on foundational theories and practices in management the conference has expanded its scope to include a diverse range of topics reflecting contemporary challenges in the field in its earlier years the conference mainly emphasized traditional management principles leadership styles and governance frameworks as global business dynamics shifted so did the conference s themes incorporating emerging trends such as digital transformation sustainability and ethical leadership

first published in 1998 readers of this volume will get a good overview of research into managerial work they will learn about what the researchers have studied what methods have been used and the criticisms of the limitations of individual methods the different concepts that have been developed what has been learnt about managerial work and behaviour from these studies over the years how this field of study has developed the main criticisms made of the research suggestions for future research and future developments studies of managerial work have a long history the first major work was by sune carlson in sweden in 1951 and studies have continued to the present day mainly in the usa and the uk the early studies sought to find out what managers actually did as distinct from the generalized theories of the nature of managerial work they were part of the new interest of social scientists in finding out what actually happened in organizations in opposition to the general theories that prevailed then articles cannot give a complete picture of the field studies that have been such a notable feature of this branch of research because carlson s study like many of the later ones was published only as a book however they provide all the information that students and researchers need to understand the aim methods and approaches used by researchers so far and a good guide to the varied possibilities for developing this area of study

this annual series presents fundamental research on the theory and practice of management volume 7 contains articles presented at the 2001 meeting of the international conferences on advances in management icam held in athens greece icam s goal is to be truly comparative in terms of the broad scope of management perspectives in the broad ranging locations of its research as well as its application and in its comparisons of findings methodologies and operational definitions this volume exemplifies icam s objectives part 1 organization theory learning and effectiveness revisits the management theory jungle reports on the development organizational learning capabilities in europe encourages organizational learning through cultural diversity and reviews the role of corporate parent part 2 behavior and attitudes in organizations considers the relationships of religion to organizational citizenship and whistle blowing behaviors identifies antecedents of misbehavior among nurses and social welfare workers and uses process framework as a method to depict encroaching processes and change in organizations part 3 international and cross cultural management looks at various issues of management abroad topics include the dimensions and levels of power bases and their relationships to subordinates compliance and satisfaction in the u s and south korea the relationship between empowerment and quality of work life in mexico and case studies of organizational intellectual capital in china part 4 management in the public sector turns attention to efforts to recognize and build on differences in public administration part 5 managing human resources addresses the nature of researcher values in human resource management and considers recent publications in mainstream human resources in order to isolate the patterns of research part 6 role of research in management discusses the need for processual thinking it presents a list of factors contrasting two views of management the classical view and the process view of management this volume will be of particular interest to corporate executives economists and labor studies specialists m afzalur rahim is founding editor of the international journal of organizational analysis and international journal of conflict management and is professor of management at western kentucky university robert t golembiewski is distinguished research professor at the university of georgia and has authored or edited over seventy five books kenneth d mackenzie is the edmund p learned distinguished professor and president of mackenzie and company he has published numerous articles in scholarly journals and several books

studies of managerial work span more than half a century nevertheless there is no clear account of the managerial work context and content the dominance of the n american school of thought in management and the rapid global expansion of the american multinational companies was based on the creation of common standard managerial practices and procedures since the

1980s this universality of managerial work has been challenged by taking seriously in consideration the role of context and more specifically national culture this qualitative study explores the interplay between managerial work roles and competencies with the local national context more specifically it focuses in luxury hotel senior managers in greece and unearths the importance of contextual variables such as the ownership status the organisational local and national culture the findings suggest that a context matters in managerial work and b that the set of roles performed and competencies exercised is unique and inimitable for every manager

i expect the jossey bass handbook will be a basic reference and source of numerous ideas and guidance for practicing managers leaders students and teachers in this field for years to come it belongs on the bookshelf of every leader and manager of a nonprofit organization dennis r young mandel professor of nonprofit management and governing director mandel center for nonprofit organizations case western reserve university herman and his associates have created a book that organizes a complex topic in a sensible and accessible way nationally recognized experts expand the reader s perception well beyond narrow managerial issues but the managerial meat is here too whether for reference or teaching purposes a better set of topics and authors on nonprofit leadership and management is difficult to imagine bradford h gray executive director program on non profit organizations ponpo yale university the leading experts in the nonprofit field describe effective practices in all the distinctive and important functions processes and strategies of nonprofit leadership and management based on up to date research theory and experience this comprehensive volume offers practical advice on every aspect of managing nonprofit organizations including board development strategic planning lobbying marketing government contracting volunteer programs fund raising financial accounting compensation and benefits programs risk management and much more

in recent years widespread organisational change in large corporations has almost invariably led to work intensification and increased stress for managers managing in the modern corporation explains how and why large companies have changed their organisational structures and philosophies focusing in particular on how these changes affect the careers of middle managers based on in depth interviews with over two hundred middle and senior managers working in large corporations in the usa uk and japan it shows how the working lives of managers have been subjected to major disruption involving work intensification and reduced opportunities for career progression furthermore it argues that such widespread

overwork and poor treatment of highly skilled and highly motivated staff has created a major international problem that must be addressed the book presents a range of solutions to this important problem suggesting that there are possibilities for saner less brutal organisational environments
