Urban Geography in America offers a comprehensive historiography of this major field compiling the best essays from the flagship journal Urban Geography it shows the evolution of the field from the 1950s to 2000 as it shifted from data driven social science modeling in the 1960s to the more critical perspectives of the 1970s to postmodernism in the 1980s to feminism and globalization in the 1990s it covers all the major trends and figures and features some of the most important names in the field ultimately this will be a necessary reference for all scholars in the field and all graduate students taking introductory courses and preparing for their comprehensive exams

Topics covered include exploring boundary between deviance and criminality in the lives of young people who are deeply involved in the youth culture show how youth culture is not a set of categories so much as it is a dynamic and creative response to the confusions of growing up in modern society

This textbook explores the emergence of sociology as a distinct social science focusing on the evolution of social theories movements and ideas through history it analyses the dynamic relationship between the individual and the larger social forces around them this volume examines the definitive aspects of societies communities and social groups and their intersections with culture political and economic movements and religious institutions it establishes the connections between sociology and other disciplines such as philosophy history political science economics psychology and anthropology to explore the interdependence between different realms of social life the chapters in this

book explain and highlight the significance of quantitative and qualitative methods of research in understanding the dynamics of social life drawing from the works of classical social theorists such as Auguste Comte, Herbert Spencer, Karl Marx, Emile Durkheim, and Max Weber. This book traces the development of sociological perspectives and theories and their relevance in the history of ideas. Lucid and comprehensive, this textbook will be useful for undergraduate and postgraduate students of sociology, development studies, history of ideas, sociological thought, social theory, research methods, political science, and anthropology.

Building upon the success of previous editions, this fourth edition of sociology lays the foundations for a theoretically and methodologically robust understanding of the subject area. Key topics are examined in an accessible and rigorous manner, encouraging reflection within a wide social, cultural, and historical context.
