an adaptation of mcgraw hill australia s financial accounting text *australian financial accounting* by craig deegan authored by anne marie ward of ulster university it communicates the detail necessary to understand challenge and critically evaluate financial reporting

this exciting book is one of the first textbooks in the fast growing area of sustainability accounting contributed to and edited by an impressive array of internationally renowned authorities it focuses on the use of sustainability accounting both as an external accountability mechanism external reporting and as a tool for helping managers assess and manage the social and environmental impacts of their operations management accounting using real life examples and case studies to emphasize the links between the conceptual basis and issues in practice this outstanding book addresses the growing interest among both practitioners and academics in social environmental and ethical accountability as interpreted through the lens of sustainable development

given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms

social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputations and that the ceo chairman duality negatively influenced firms socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management and corporate governance corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the empirical findings with the revised theoretical framework

this book covers key discussions involving major us and european multinational companies mncs that source products from suppliers in developing countries due to the transfer of production from developed to developing nations there is an urgent need to establish social compliance as a new form of corporate social responsibility csr and a means by which mncs can meet expected social standards the cases described are internationally relevant and can be seen to reflect or represent the behavior of many mncs and their suppliers in developing nations the discussion offers essential insights into how different levels of social compliance risk and pressure including broader stakeholder concerns move managers to adopt or embrace particular social compliance accounting reporting and auditing strategies the book will help readers to understand the major concerns challenges and dilemmas faced by management in the supply chains of mncs and proposes measures that can be taken to resolve those dilemmas most importantly it develops a systematic method of assessing the social compliance performance of suppliers to mncs this includes highly detailed accounts of the social compliance performance of suppliers within the clothing industry in a developing nation that supply goods to the extensive us and european markets the book offers a valuable guide not only for corporate managers but also for practitioners researchers academics and undergraduate and postgraduate business students

seminar paper from the year 2003 in the subject business economics accounting and taxes grade 2 0 b helmut schmidt university university of the federal armed forces hamburg institute for corporate accounting course controlling 27 entries in the bibliography language english abstract the topic of the paper is the the development of the accounting standards of the australian accounting standard board after the end of the g4 1 i want to summarise the recent standardisation progress both

international and in the view of australia and have a closer look on the australian accounting environment what was the g4 1 and why did it disband what was the australian reaction on the end of the g4 1 what will the future of international and australian accounting look like i have chosen the topic because i am currently staying at the australian defence force academy and studying at the university of new south wales australia has been one of the major standard setters in the world and has had a deal of influence on international accounting standards although it is a relatively small economy in the world hardly a day passes without problems of financial reporting appearing in the international press recent events like the scandals of enron worldcom and xerox show the need for reasonable accounting international accounting is an actual problem to be solved and a future chance for all kinds of businesses after the introduction i will first present the accounting environment of australia and its institutions then i will discuss the development of international accounting and the g4 1 group and its dissolution i will have a look on the harmonisation project and what happens in australia after the end of the g4 1 at the end i will illustrate the relation between ias and aas and give a conclusion for my work i used several recent books on australian financial accounting that are used by institutions across australia various journals on accounting

understanding environmental liability and disclosure is critical for firm management investors accountants and auditors the u s congress has been increasing the pressure on companies to disclose information on environmental liabilities for years this study delves into the issue by examining the impact of environmental disclosure on financial performance these insightful essays provide guidance by supplying the most current and concise research available on this important topic covering such topics as

legislation liability and regulations this work analyzes how environmental disclosure influences the financial statements and public accountability of companies and ultimately drives organizational change this book builds the framework necessary to comprehend the complexities of quantifying environmental liabilities and make well informed decisions

essay from the year 2012 in the subject business economics accounting and taxes grade a university of westminster course bsc accounting and business management language english abstract on an international scale harmonisation aims to update align or even replace domestic standards with a high quality set of international accounting standards issued by the iasb reducing differences in financial reporting between various countries would benefit a wide variety of users in understanding and comparing accounts on a much larger geographical scale however there are numerous obstacles discussed which can hinder the speed and completion of harmonisation

in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government s recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government s economic political and

social roles in promoting encouraging and controlling the development of csr reporting
