first published in 1962 this seminal work is an introduction to sociology in a world context and a sophisticated guide to the major themes problems and controversies in contemporary sociology the book remains unique in its organisation and presentation of sociological ideas and problems in it s lack of insularity its wide coverage of diverse types of society and of

sociological thought from various cultural traditions and in its systematic connection of sociology with the broad themes of modern social and political thought

the breadth and depth of zygmunt bauman s engagement with social theory and the history of social thought has perhaps been underestimated in part because many of his early writings were in polish and never translated into english and in part because many important pieces appeared in edited volumes and journals that are not readily available this volume brings together hitherto unknown or rare pieces by bauman on the theme of theory and society and also makes available previously unpublished material from the bauman archive at the university of leeds a consistent theme of bauman s work was his sustained engagement with humanism and this provides a unifying thread in the pieces brought together in this volume here bauman reflects on some of the core concepts of sociology examines the work of a wide range of social theorists from durkheim and gramsci to agnes heller and c wright mills and addresses an array of key ideas and issues including inequality identity and social change a substantial introduction by the editors provides readers with a lucid guide through this material and develops connections to bauman s other works this is the third and final volume in a series of books that make available the lesser known writings of one of the most influential social thinkers of our time it will be of interest to students and scholars across the arts humanities and social sciences and to a wider readership

sociology and social theory has always been a major source of new perspectives for organization studies access to a series of authoritative accounts of theorists and research themes in sociology and social theory which have influenced developments in organization studies is essential for those wishing to deepen and extend their knowledge of the intersection of sociology and organization studies this goal is achieved by drawing on a group of internationally renowned scholars committed in their own work to strengthening these links and asking them to provide critical accounts of particular theorists and research themes which have straddled this divide this volume aims to strengthen ties between organization studies and contemporary sociological work at a time when there are increasing institutional barriers to such cooperation potentially generating a myopia that constricts new developments used in conjunction with its companion volume the oxford handbook of sociology and organization studies classical foundations the reader is provided with a comprehensive account of the productive and critical interaction between sociology and

organization studies over many decades highly international in scope theorists and themes are drawn from both the usa and europe in equal measure similarly the authors of the chapters are drawn from both sides of the atlantic the result is a series of chapters on individuals and key research themes and debates which will provide faculty and post graduate researchers with appreciative authoritative and critical accounts that can be drawn on to design courses or provided guided reading to the field

first published in 1975 this collection of essays embodies a conception of sociological thought as a critical analysis of social theories and doctrines of social institutions and political regimes of recent social movements they deal in particular with some conservative versions of sociology and with attempts to develop more radical theories they extend the author s previous writings on classes elites and politics and they analyse some of the problems of socialism in the late twentieth century there is a close unity of theme throughtout the book in its critical attempt to formulate new intellectual bases for future radical and egalitarian politics it is written with that quiet wisdom and impressive command of sources which readers have come to associate with professor bottomore s work

presents sociological concepts theories and methods in relation to the culture and institutions of india prepared at the invitation of unesco s social sciences division

unmasking the neoliberal paradox this book provides a robust conceptual and theoretical synthesis of development power and the environment with seven case studies on global challenges such as under development food regime climate change dam building identity politics and security vulnerability the book offers a new framework of a double risk society for the global south with apparent ecological and social limits to neoliberal globalization and development the current levels of consumption are unsustainable inequitable and inaccessible to the majority of humans power has a great role to play in this global trajectory though power is one of most pervasive phenomena of human society it is probably one of the least understood concepts the growth of transnational corporations the dominance of world wide financial and political institutions and the extensive influence of media that are nearly monopolized by corporate interests are key factors shaping our global society today in the growing concentration of power in few hands what is apparent is a non apparent nature of power understanding the interplay of power in the discourse of development is a crucial matter at a time when our planet is in peril both environmentally and socially this book

addresses this current crucial need

this book provides an original overall account of the history of sociology at the london school of economics and political science where the first sociology course as part of a conventional university degree programme in the uk was taught thus the book is unique in its contribution to an important part of the history and development of sociology in the uk the chapters discuss the names that at least until the post war period are identified as central to the early phase of british sociology husbands documents the impact and influence of these leading figures through material in numerous previously little used archives also explored are the culture of lse sociology students their attitudes political orientations and academic attainments the reputation and influence of lse sociology on the general development of the subject in the uk are also assessed the book will be of interest to sociology students and scholars wanting to know about the discipline s history as well as to those with a broader interest in higher education policy

classic and contemporary readings in sociology introduces the reader to sociological issues theories and debates providing extracts of primary source material from both classical and contemporary theorists theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research the text is divided into four main sections part one origins and concepts surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation in particular social control culture and socialisation parts two and four sociological theories and sociological research include a number of readings from the founding theorists and investigators including auguste comte emile durkheim karl marx max weber and charles booth and also include more recent theoretical writing and research approaches the focus on theory and research is extended by a selection of readings centred around the theme of differences and inequalities part three these readings provide students with examples of work from an area where sociological theorising and research has been widely applied

includes entries for maps and atlases

a critique of the conventional wisdom
