about felix klein the famous greek mathematician constantin carathéodory once said it is only by illuminating him from all angles that one can come to understand his significance the author of this biography has done just this a detailed study of original sources has made it possible to uncover new connections to create a more precise representation of this important mathematician scientific organizer and educational reformer and to identify misconceptions because of his edition of julius plücker s work on line geometry and due to his own contributions to non euclidean geometry klein was already well known abroad before he received his first full professorship at the age of 23 by exchanging ideas with his most important cooperation partner the norwegian sophus lie klein formulated his erlangen program various other visionary programs followed in which klein involved mathematicians from germany and abroad klein was the most active promoter of riemann s geometric physical approach to function theory but he also integrated the analytical approaches of the weierstrass school into his arsenal of methods klein was a citizen of the world who repeatedly travelled to france great britain italy the united states and elsewhere despite what has often been claimed it must be emphasized that klein expressly opposed national chauvinism he promoted mathematically gifted

individuals regardless of their nationality religion or gender many of his works have been translated into english french italian russian and other languages more than 300 supporters from around the world made it possible for his portrait to be painted by the prominent impressionist max liebermann inspired by international developments klein paved the way for women to work in the field of mathematics he was instrumental in reforming mathematical education and he endorsed an understanding of mathematics that affirmed its cultural importance as well as its fundamental significance to scientific and technological progress

this volume is a meticulously researched text on pneumatology that puts the major pneumatological issues together without confining to the traditional way of dealing with the doctrine of the holy spirit although pneumatology has been a neglected field in theological discussions of the past there is a renewal of interest among theologians on pneumatology today this renewal of interest has led to the formation of this work on the role of the holy spirit in the protestant systematic theology through highlighting the role and significance of the holy spirit in the whole divine action this volume contends that pneumatology is not a dull theological locus but rather an essential theological disposition relevant for today the detailed arguments found within challenge and inspire the contemporary pneumatological discussions as it relates to all the facets of theological reflection and action
