the national curriculum handbooks are the official national curriculum documents for secondary and primary schools they are the revised blue print for what every child will be required to learn in school from september 2000

litigation and alleged cases of educational malpractice are on the rise headteachers and governors are more aware of legal requirements but this new book addresses the needs of teachers the book introduces a framework for safe practice then the high risk subjects of science ict

design and technology and pe and outdoor activities in separate chapters the implications for classroom practice of recent legal developments are examined and three more chapters look at what can be expected in the process of litigation sound advice for those wishing to make schools safer and useful guidance for those having to deal with the aftermath of a safety problem

ofsted continues to identify weaknesses in this subject while many primary non specialist trainees lack confidence in the area linked to the new 2007 standards for qts and the data tier 1 competencies this book is for trainees who have had less than 20 hours training in design and technology but are required to teach the subject during school placements and once qualified this clear jargon free text explains the key concepts and curriculum requirements without assuming prior expertise or advanced levels of understanding making this book a sound basic introduction

since 1989 initial teacher training courses in england and wales have included teacher preparation for taking a lead in a school subject area in their first appointment there is no longer a place for a teacher newly qualified or not in primary schools whose sole responsibility is for his or her own class a teacher must have specific specialist knowledge and expertise in particular subjects which must be shared with all staff this text contains the latest curriculum and assessment changes it aims to help students and newly qualified teachers to understand the complexities of being a co ordinator of a national curriculum subject in key stage 2 and reports on best practice

this curriculum guide helps teachers plan deliver and evaluate programmes based on the health related exercise hre component of the national curriculum for england and wales author jo harris has pulled together the contributions of 27 noted individuals including experts from national physical education sport and health education associations the result is an easy to read resource that will deepen your understanding of why hre should be implemented as school policy and will show you how to design your own curriculum in health related exercise in the national curriculum key stages 1 to 4 you ll find a wealth of information on everything from basic terminology to effective assessment techniques it also features practical tools to help you do a better job of teaching hre including ready to use forms charts and 23 tables with information on hre curriculum guidelines learning outcomes approaches to teaching health related exercise designing curricula and sample units this guide is not only complete it s also authoritative author jo harris has played a significant role in the success of the hre movement in britain from 1987 to 1993 she was active in the health and physical education national project at loughborough university where she actively promoted the teaching of hre in schools across the country dr harris has applied her expertise to this book to make it the best resource for teachers who want to help young people enjoy value and benefit from an active lifestyle the teacher training agency has awarded health related exercise in the national curriculum key stages 1 to 4 its official kite mark as an invaluable tool for physical education

since 1989 initial teacher training courses in england and wales have included teacher preparation for taking a lead in a school subject area

in their first appointment there is no longer a place for a teacher newly qualified or not in primary schools whose sole responsibility is for his or her own class a teacher must have specific specialist knowledge and expertise in particular subjects which must be shared with all staff this text contains the latest curriculum and assessment changes it aims to help students and newly qualified teachers to understand the complexities of being a co ordinator of the national curriculum subjects in the early years of schooling and reports on best practice

the report indicates that schools have generally made good progress in planning for the national curriculum and in each of the three key stages standards were at least satisfactory in about 70 of the classes visited but it confirms that improving the curriculum in order to raise standards is a gradual and long term process it records steady if unspectacular growth in some areas such as practical work and using microcomputers and the little progress made in others such as assessment and recording

the authors refer to theory as well as giving practical examples to support their contention that the process of learning in the early years is as important as content they offer guidance on how to foster learning not turn children off school

discusses ways to manage the process of putting major change into practice in schools the book draws on the latest thinking from business and education on how to manage change in this chaotic context
