in 2011 protesters around the world including canada called for changes to the societies in which they live many observers were asking what do they want some answers to this question can be found in how societies work a unique and accessible introductory sociology textbook that introduces students to the structure of contemporary societies and the power relationships within them in contrast to most introductory textbooks how societies work explores a broad range of sociological concepts and theories while simultaneously creating a coherent picture of modern societies drawing on fields as diverse as anthropology genetics economics social psychology history and politics this innovative and popular text looks at both the roots of modern societies and the current structures within them this approach helps undergraduate students make sense of our complex social world and encourages them to connect the social world to their own lived experiences this extensively revised and updated fifth edition includes discussions of the roots of the recent global economic crisis and worldwide responses to it growing social inequality broader global struggles for change the growth of the security state in canada and the sudden resurgence of political protest in north america the final chapter looks to the future examining such issues as the possible consequences of climate change increased forced migration of peoples and the changing dynamic of global power more boxes quotes and think about it elements have been added to the fifth edition while the language clarity of presentation and many examples make it even more accessible to readers it is an introductory textbook that truly engages students in the sociological imagination this fifth edition is presented in a large format making it easier to read and even more student friendly a testbank and power point presentation are available for instructors upon request

in 2011 protesters around the world including canada called for changes to the societies in which they live many observers were asking what do they want some answers to this question can be found in how societies work a unique and accessible introductory sociology textbook that introduces students to the structure of contemporary societies and the power relationships within them in contrast to most introductory textbooks how societies work explores a broad range of sociological concepts and theories while simultaneously creating a coherent picture of modern societies drawing on fields as diverse as anthropology genetics economics social psychology history and politics this innovative and popular text looks at both the roots of modern societies and the current structures within them this approach helps undergraduate students make sense of our complex social world and encourages them to connect the social world to their own lived experiences this extensively revised and updated fifth edition includes discussions of the roots of the recent global economic crisis and worldwide responses to it growing social inequality broader global struggles for change the growth of the security state in canada and the sudden resurgence of political protest in north america the final chapter looks to the future examining such issues as the possible consequences of climate change

increased forced migration of peoples and the changing dynamic of global power more boxes quotes and think about it elements have been added to the fifth edition while the language clarity of presentation and many examples make it even more accessible to readers it is an introductory textbook that truly engages students in the sociological imagination this fifth edition is presented in a large format making it easier to read and even more student friendly a testbank and power point presentation are available for instructors upon request

this book's unfading preoccupation with social context social processes and social structures distinguishes itself and greatly contributes to the discourse in gerontology the gerontologist this classic text now in its fifth edition is distinguished by its emphasis on social context social processes and social structures as part of a broader understanding of the sociology of aging and the life course presenting an objective view of the realities of aging both positive and negative the book examines aging from micro macro personal community societal and global perspectives this fifth edition describes important changes in the field of social gerontology and the growth in such topics as diversity global aging and the life course it addresses major shifts in public policy social institutions and aging related programming initiatives there is a strong focus on the changing landscape of aging particularly in regard to social engagement employment and lifelong learning enhanced health and independence and livable communities for people of all ages additionally the book includes new information on the affordable care act and end of life issues the text is uniquely organized featuring theoretical discussions in each chapter and topical essays between chapters critical thinking and review questions foster an in depth understanding of the material written in an engaging style the text is for graduate and upper level undergraduate students it is also used effectively in introductory gerontology classes in addition to an instructor's manual the fifth edition now includes power point slides new to the fifth edition provides updated data on aging and baby boomers in the united states and worldwide presents expanded focus on baby boomers impact on the larger society discusses major public policy changes and innovative services and programs affecting older adults uses detailed examples to illustrate the challenges of sorting out age period and cohort effects in research on aging covers the affordable care act and up to date information on medicare features new information on end of life issues presents provocative essays on positive and contemporary issues not typically covered including love sex creativity media representations lgbt aging and crime focuses on enhanced health and independence and aging in place initiatives provides learning objectives in each chapter and web based extracurricular activities includes powerpoint slides in addition to an instructor's manual

this two volume handbook supplies food chemists with essential information on the physical and chemical properties of nutrients descriptions of analytical techniques

and an assessment of their procedural reliability the new edition includes two new chapters that spotlight the characterization of water activity and the analysis of inorganic nutrients and provides authoritative rundowns of analytical techniques for the sensory evaluation of food amino acids and fatty acids neutral lipids and phospholipids and more the leading reference work on the analysis of food this edition covers new topics and techniques and reflects the very latest data and methodological advances in all chapters

founded on the paradox that all things are poisons and the difference between poison and remedy is quantity the determination of safe dosage forms the base and focus of modern toxicology in order to make a sound determination there must be a working knowledge of the biologic mechanisms involved and of the methods employed to define these mechanisms while the vastness of the field and the rapid accumulation of data may preclude the possibility of absorbing and retaining more than a fraction of the available information a solid understanding of the underlying principles is essential extensively revised and updated with four new chapters and an expanded glossary this fifth edition of the classic text principles and methods of toxicology provides comprehensive coverage in a manageable and accessible format new topics include toxicoponomics plant and animal poisons information resources and non animal testing alternatives emphasizing the cornerstones of toxicology people differ dose matters and things change the book begins with a review of the history of toxicology and followed by an explanation of basic toxicological principles agents that cause toxicity target organ toxicity and toxicological testing methods including many of the test protocols required to meet regulatory needs worldwide the book examines each method or procedure from the standpoint of technique and interpretation of data and discusses problems and pitfalls that may be associated with each the addition of several new authors allow for a broader and more diverse treatment of the ever changing and expanding field of toxicology maintaining the high quality information and organizational framework that made the previous editions so successful principles and methods of toxicology fifth edition continues to be a valuable resource for the advanced practitioner as well as the new disciple of toxicology

advances in food science technology and engineering are occurring at such a rapid rate that obtaining current detailed information is challenging at best while almost everyone engaged in these disciplines has accumulated a vast variety of data over time an organized comprehensive resource containing this data would be invaluable to have the

this widely used text has been expanded to include the most important issues in contemporary schooling including new end of chapter sections for further reading new references added to the useful additional resources section school and society fifth edition uses realistic case studies dialogues and open ended questions designed

to stimulate thinking about problems related to school and society including curriculum reform social justice and competing forms of research written in a style that speaks directly to today s educator this book tackles such crucial questions as do schools socialize students to become productive workers does schooling reproduce social class and pass on ethnic and gender biases can a teacher avoid passing on dominant social and cultural values what besides subjects do students really learn in schools school and society is one of the five books in the highly regarded teachers college pressthinking about education series now in its fifth edition all of the books in this series are designed to help pre and in service teachers bridge the gap between theory and practice praise for previous editions i have been surprised and pleased by the relevance of this particular book to the lives and work of my beginning teachers teaching education this series does a masterful job of bringing together the basic issues and teaching methods that should frame social and philosophical foundations curricula educational theory walter feinbergis professor of educational policy emeritus at the university of illinois at urbana champaign jonas f soltisis william heard kilpatrick professor emeritus of philosophy and education at teachers college columbia university
