from the introduction for over 30 years i have studied the hidden world of the occult through all this time i have come to realize one important thing in particular latin is the language of magic it was the language most commonly used by magicians of ages past and the advantage to you reciting incantations in a foreign tongue is that it creates a sense of disassociation with the everyday world which equates to a greater chance of success in the magical manipulation of situations many of these incantations have

Latin is alive and well beginning in Rome around 600 BC Latin became the language of the civilized world and remained so for over two millennia French Spanish Italian and Romanian are among its progeny and it still provides the international vocabulary of law and life science no known language including English itself enriched by Latin words and phrases has achieved such success and longevity. Tore Janson tells its history from origins to the present brilliantly conceived and written with the same light touch as Speak his bestselling history of languages. A natural history of Latin is a masterpiece of adroit synthesis the author charts the expansion in the classical world its renewed importance in the middle ages and its survival into modern times he shows its central role in European history and culture and by judicious quotation of phrases and texts describes how spoken and written Latin changed and evolved differently in different places he ends with a summary of Latin grammar and lists of Latin words and of phrases still in common use considered elitist and irrelevant in the second half of the twentieth century and often banned from schools Latin is now enjoying a huge revival of interest and a renaissance in schools across Europe the UK and the USA. Tore Janson offers persuasive arguments for its value and direct access to its fascinating worlds past and present
